Title: To Create 2D animation of a man/any animal (cat, dog etc) walking at the beach. (Note to add other objects like trees, shell etc . to give it good effects)

1) Steps to create the 2D animation (complete steps from start till the end).
   a) Create a new file with 2d animation in the blender
   b) Start drawing.
   c) Create man, cloud, beach, and ocean.
   d) Give animation using the timeline.
   e) Give it a sequence animation by interpolating strokes.
   f) Render animation.
2) List of modifiers used if any.
   a) None.
3) Screenshot of the UI of the blender.
